## MISSION STATEMENT

Keats Camps is a non-profit organization that is dedicated to proclaiming Christ through quality camping opportunities and youth ministries. Our goal is to become a high quality, year round ministry which is relevant to the needs of our participants, Baptist Union Churches and Partners in Christian Outreach. Any individual desiring to use the facilities will be expected to honour and cooperate with the values held by Keats Camps

RENTALS

*Come and enjoy the  
beauty  
of God's creation at Keats  
Camps...  
The purposeful and  
Peacefulness of Fall,  
The wonderful wildness of  
Winter,  
And  
The renewal and  
Restoration of Spring.*

**Whalers' Village**, our main campus, is a facility which comprises a Green which is encircled by 15 cabins and a Boardwalk which connects three meeting rooms. The meeting rooms are the Clamshack, Wheelhouse and Map Room.

Whalers' Village accommodates from 40-150 guests with full food service in our new dining room/kitchen.

The 15 cabins welcome up to 12 guests each and have a double interior bathroom.

**The Pilot House** is our new arrival. The building can accommodate up to 72 guests with full camp food service in our new dining room. It has six rooms that sleep 12.

Further, the six cabins can be divided in half, each with separate entrance, bathroom and one double lower bunk. This was designed with families and couples in mind.

The Pilot House has a kitchen/meeting room, upstairs in the same building. The domestic kitchen has been designed so that groups can provide their own food service for up to 37 people.

If your group is over 150 campers, the camp can be super-sized by combining use of the two facilities.

During the rental season, the interior dining area has a capacity of 200 guests.

**Homeport** is a kitchen/dining area that meets the needs of 18 guests. It is located on the lower part of the Keats Campus with an excellent view of the water over looking Gibsons.

Sleeping accommodations are either in cabins in the Main Campus or in OQ, a dorm style building.
